Hellan® Fluid Strainers
AND FILTRATION SYSTEMS

Consolidated Pressure Relief Valves from Dresser - Green Tag Center

- > ASME certified safety valves, safety relief valves, electromatic ball valves, pilot-operated valves
- > Authorized Green Tag Center with largest inventory of Consolidated valves on the West Coast

Conbraco Safety Relief Valves

- > ASME certified pressure relief valves for steam, air and non-hazardous gas
- > Certified Conbraco Setting Station with extensive inventory of Section I and VIII relief valves

CDC Rupture Discs

- > Rupture discs & safety relief products to protect vessels, equipment, & systems from overpressure conditions
- > Sanitary rupture discs for high purity applications

Conval Clampseal Valves

- > High pressure, forged gate, globe, check and throttling valves for critical service applications
- > Easy to maintain and in-line repairable

Cameron – Valves for Oil and Gas Production, Transmission and Refining

- > Twin Seal / Truseal Double Block & Bleed Plug Valves
- > Orbit, WKM, Foster, Grove, T-K, and Wheatley

Copes-Vulcan Control Valves

- > Severe service and general duty control valves
- > De-superheaters and steam conditioning

Groth Relief Valves

- > Pressure/vacuum relief valves, flame and detonation arresters, blanket gas regulators,
- > For atmospheric, fixed-roof, non-refrigerated storage tank protection

HBE Valves

- > Automatic Re-Circulation (ARC) valves for centrifugal pump minimum flow protection
- > Cost effective combination of main flow check valve, flow sensing, minimum flow control, pressure reduction, and pulsation dampening into a single valve

Limitorque

- > Quarter turn and multi turn motor operators, worm gear and bevel gear actuators
- > Sensor to boardroom solutions for improved valve control

TLV

- > Full line offering of steam traps for drip, trace and process applications
- > Pressure powered condensate return pumps

Tricentric

- > Triple-offset, metal-seated butterfly valve with zero leakage sealing
- > Suitable for high temperature, high-cycling, cryogenic and severe service applications

A & M

- > Engineered Valve Products & Solutions
- > Check valves, Gate valves, Globe valves & 3-way valves

Valvtechnologies

- > Severe Service, Zero leakage, Metal Seated, Ball Valves for Steam and Process Applications
- > Check valves, Gate valves, Globe valves & 3-way valves

Hellan Fluid Strainers

- > Duplex Automatic and manual strainers
- > Allows users to eliminate solids and debris from fluids without stopping the the flow of the fluid
- > Reduces the time required to remove solids from the fluid flow
